Modern downlighting is a feature throughout the home, and a crisp colour scheme and gleaming tiles certainly make the interior easy on the eye. The kitchen sits central in the home and here you will find stainless steel appliances including a dishwasher and a gas cooktop. There's a good amount of storage with the main benchtop incorporating a breakfast bar for informal dining and overlooking the air conditioned family and dining room. From here you have access to the covered outdoor, ideal for entertaining guests or a spot of alfresco dining.
