Whilst this home is immaculate from the street, it's not until you step inside that you will truly appreciate the size, space and features on offer here, like air conditioning, fans and picture perfect presentation.

Once approaching the front porch and opening the front door, the first glimpse of the home is the air conditioned formal lounge which flows through to the formal dining area. The second living area of the home is adjacent to the great sized kitchen and is sure to impress with plenty of cupboard and bench space plus dishwasher.
