Immediately upon entry you are greeted by the spacious lounge room, which is conveniently separate to the other living areas located a bit further into the home. The open-planned and air-conditioned family and meals areas work together with the kitchen to form the unofficial heart of the home. In the kitchen you'll find a huge amount of bench space, an abundance of storage, an electric stove, stainless steel wall oven plus an extra-large fridge space. The chef of the house will be all smiles!
